The coach price is calculated according the actual number of persons carried, whereby the driver and the tour guide are exempt. It is conditional that the ticket office staff have the opportunity to check the given figures. If this is not the case, the adult prices for the number of seats given in the vehicle licence are charged.

The children's tariffs are valid from the 6th to the end of the 15th year.

The return ride on the same day is free of charge.
